 10min
- ☐ 65. Adding authentication to the Gateway config
 7min
- ☐ 66. Testing our Gateway service in Postman
 8min
- ☐ 67. Adding the remaining contracts we need
 5min
- ☐ 68. Adding the remaining consumers to the Auction Service
 11min
- ☐ 69. Adding the remaining consumers in the Search Service
 6min
- ☐ 70. Adding a new client to the Identity service configuration
 7min
- ☐ 71. Summary of Section 6
 1min

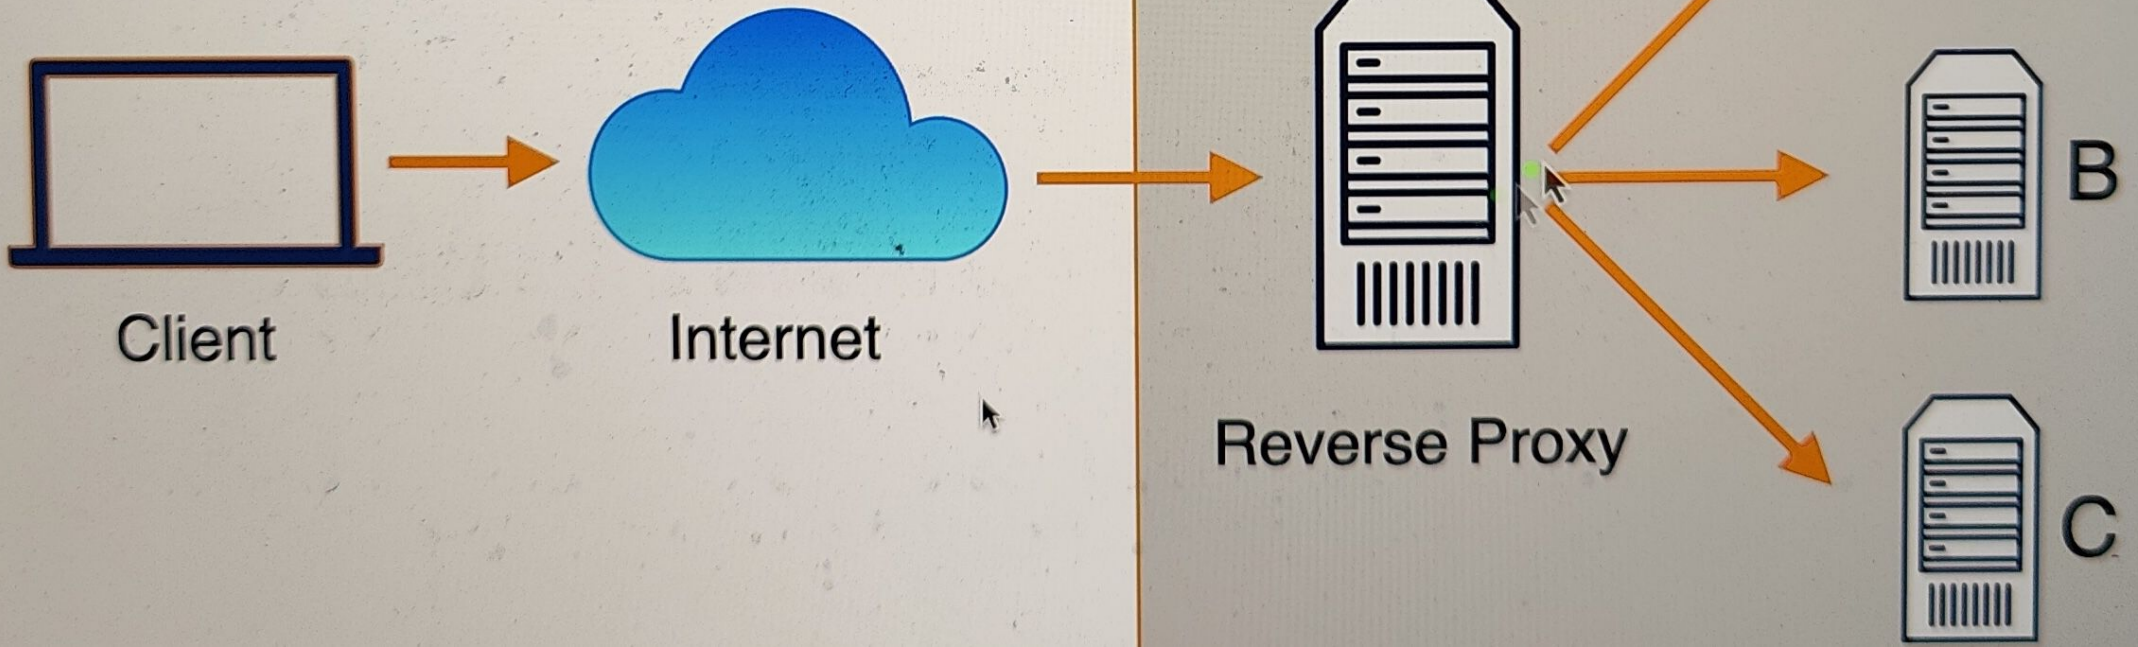

So... What is a Reverse Proxy anyway?

Proxy

So... What is a Reverse Proxy anyway?

Reverse Proxy

Do we need one?

- Very typical in Micro Services
- Single surface area for requests
- Client unaware of any internal services
- Security
- SSL termination
- URL rewriting
- Load balancing
- Caching
